SUMMARY

Product Engineer with over **3 years of experience** building modern full-stack web apps using Next.js, TypeScript, and Supabase. Experienced in delivering fast, reliable, and well-structured applications. Currently leading internal digital transformation at PT. Plana Networks using Flutter and Firebase, improving legacy workflows by 40%. Enjoys functional programming and focuses on keeping solutions simple while solving complex business problems.

SKILLS

Next.js, React, TypeScript, Supabase, Tailwind CSS, Tina CMS, GSAP, Framer Motion, Figma, UX/UI Design, Flutter, Firebase, AWS, Git, HTML, CSS, Zustand, Redux, Linux, JavaScript, Java, Node.js, PostgreSQL, REST APIs, Haskell, Clojure, Functional Programming, Data Structure

EXPERIENCE

Senior Software Engineer & Technical Analyst <i>PT. Plana Networks Indonesia</i> - Led development team architecting internal mobile tools using Flutter and Firebase. - Digitized manual workflows, reducing administrative processing time by 40% for operations. - Translated complex ERP rules into strict technical schemas.	Jan. 2025 – Present <i>Jakarta, Indonesia</i>
Product Engineer <i>Siliwangi Studio</i> - Architected 10+ high-performance Next.js apps achieving 100/100 Google Lighthouse scores. - Engineered "Headless" CMS solutions enabling clients to manage content without code. - Owned full SDLC, translating client requirements into deployable, scalable products.	Aug. 2023 – Dec. 2025 <i>Karawang, Indonesia</i>
Backend Software Engineer <i>PT. Wide Technologies Indonesia</i> - Refactored legacy Java code, reducing API latency by 35% and fixing bugs - Implemented secure, idempotent REST endpoints for high-volume banking transactions. - Increased unit test coverage, significantly reducing bugs in payment processing modules.	Apr. 2022 – Aug. 2023 <i>Jakarta, Indonesia</i>

PROJECTS

PAN Insight <i>Flutter, Firebase, Dio, PDFx</i> - Engineered multi-level approval workflows to streamline complex hierarchical decision-making. - Integrated seamless document management with in-app PDF viewing and Firebase Storage. - Enhanced user engagement through real-time push notifications and interactive calendar scheduling. - Secured application access using email dan password with robust role-based permission systems.	Aug. 2025 – Dec. 2025
SiliwangiStudio.Com <i>Figma, Next.js, Tailwind, Tina CMS, Next-Intl</i> - Developed the official website for Siliwangi Studio, a digital agency serving international clients. - Built a modern, responsive marketing site using Next.js, Tailwind, and Tina CMS for visual editing - Enabled non-developers to manage content via Git-based CMS, including landing pages, portfolios, and blogs. - Handled the full development cycle—from UI/UX design to deployment—for diverse global industries.	Jan. 2025 – Feb. 2025
TKRPP Karawang <i>TypeScript, Next.js, Tailwind, Firebase, Custom CMS</i> - Led the end-to-end development of a warehouse management system—from UI/UX design to full implementation. - Built a fast, responsive web app using Next.js and Tailwind CSS with optimized component architecture. - Integrated Firebase for real-time data handling, authentication, and scalable backend services. - Developed a custom CMS to allow staff to manage inventory and reports with ease.	Sep. 2023 – Dec. 2023

EDUCATION

Buana Perjuangan University <i>Bachelor's Degree in Informatics Engineering</i> <i>Coursework: Data Structures & Algorithms, Software Engineering, Databases, Expert System</i>	Karawang, Indonesia <i>Sep. 2018 – Apr. 2022</i>
